

Umbrella

by Security First.

A dark, atmospheric photograph of a forest path. The scene is filled with tall, thin trees whose trunks converge towards a bright, sunlit opening in the background. Sunlight filters through the canopy, creating long, sharp shadows and highlights on the dark, mossy ground. A small, light-colored object, possibly a rock or a piece of debris, lies on the path near the bottom right. The overall mood is mysterious and focused.

This new app provides practical advice for everything from how to make a secure phone call or protect files, to spotting surveillance or what to do if you're arrested. Lessons give you simple step-by-step actions of what to do in any given security situation and show you the best tools to do it with. Easy-to-use checklists can help mark your progress, and a dashboard also allows you to keep up to date with the current risks in your area.
